SUMMARY TABLES 15

103-00877/

INTRODUCTION

Sentence administration and demographic information on offenders under federal jurisdiction (those serving sentences of two years or longer) is routinely collected by the Correctional Service of Canada (CSC). In 1993, the CSC converted from the Offender Information System (O.I.S.) to the Offender Management System (O.M.S.). The Service had historically reported offender population statistics through quarterly publications and monthly snapshots using the Offender Population Profile System. Therefore, caution should be taken when comparing data derived from O.M.S. to data from previous years.

This report summarizes data gathered for a seventh time[1] on homicide, sex, robbery and drug offenders in federal corrections. These end-of-2000 numbers reflect the prevalence or the number of offenders who have these types of crimes under federal jurisdiction. While the total number of offenders with these crimes is likely to be an underestimate, the statistical profiles generated in this report may be seen to provide general indicators of the extent and nature of these types of offenders. More specifically, distributions with respect to security level and release status as well as region are given. Comparisons are made with end-of-1994 figures to establish trends. Further, descriptive statistics in relation to gender, age, ethnicity and nature of offence are also provided.

Note: Selection criteria used to define the current federal offender population excluded the following O.M.S. Offender Current Status Table codes: deceased, on bail, sentence completed, suspended unlawfully at large, and suspended temporary detained.

---

1 L.L. Motiuk and M. Nafekh, Statistical Profiles of Homicide, Sex, Robbery and Drug Offenders in Federal Corrections: An End-of-1999 Review (Ottawa: Correctional Service Canada, 2000).

HOMICIDE OFFENDERS

Background

In Canada, the crimes classified as homicide include first degree murder, second-degree murder, manslaughter and infanticide. Deaths caused by criminal negligence, suicide, accidental or justifiable homicides are not included.

Although homicides represent **less than 1%** of all violent crimes, criminal justice agencies have been collecting homicide statistics since 1961 to closely monitor the extent and trends of such offences. In 1999, the homicide rate in Canada was 1.8 per 100,000.

The following is an end-of-2000 review of statistical information available on homicide offenders then under federal jurisdiction.

The Current Situation

Total Homicide Population

- On 31 December 2000, a review of CSC's offender management system yielded a total of **4,881** homicide offenders under federal jurisdiction and comprises **one-fifth (22.2%)** of the total federal offender population.

Incarcerated Homicide Population

- On 31 December 2000, there were **3,025** homicide offenders incarcerated in federal institutions and comprise **one-quarter (25%)** of the federal incarcerated population.

- About **713** of these federally incarcerated homicide offenders were in **maximum security** institutions, **1,676** were in **medium security** institutions, and **636** were in **minimum security** institutions. More specifically:

    - Minimum security: **21.1%** of all homicide offenders;
    - Medium security: **55.4%** of all homicide offenders; and
    - Maximum security: **23.6%** of all homicide offenders.

Conditional Release Homicide Population

- On 31 December 2000, there were **1,856** homicide offenders on conditional release and comprise **18.1%** of the federal conditional release population.

More specifically:

- **276 or 14.9%** were on day parole;
- **1,388 or 74.8%** were on full parole; and
- **192 or 10.3%** were on statutory release

Regional Distribution of Homicide Offenders

- Regionally, the **Ontario** and **Quebec regions** have the **most** homicide offenders, each being responsible for slightly more than **one quarter** of the homicide offender population, respectively.

- In a comparison of the proportion of homicide offenders in each region with the proportion of general offenders, the **Ontario and Pacific regions** have **more** homicide offenders relative to their proportion of all federal offenders.

More specifically:

- Atlantic: **7.0%** of homicide offenders, and **8.6%** of all offenders (proportionately **fewer** homicide offenders);
- Quebec: **26.5%** of homicide offenders, and **26.8%** of all offenders (proportionately **fewer** homicide offenders);
- Ontario: **28.6%** of homicide offenders, and **27.0%** of all offenders (proportionately **more** homicide offenders);
- Prairies: **18.5%** of homicide offenders, and **23.8%** of all offenders (proportionately **fewer** homicide offenders); and
- Pacific: **19.3%** of homicide offenders, and **13.9%** of all offenders (proportionately **more** homicide offenders).

Homicide Offender Population Trends

- The end-of-1999 homicide offender population has increased relative to the end-of-1994 homicide offender population - particularly in federal institutions. Over a recent six-year period (31 December 1994 to 31 December 2000) the **total homicide offender population** has **increased by 11.1%** the homicide offender population **in institutions** has **increased by 4.5%** and the homicide offender population under **community supervision** has **increased by 21.3%**.

Characteristics of Homicide Offenders

Gender

- On 31 December 2000, a review of CSC's offender management system revealed that the **majority of homicide offenders** listed to date are **male (95.8%)**. There were **206 (4.2%)** cases of a **female** offender for whom a homicide offence was listed.

Age

- On 31 December 2000, the **average age** of homicide offenders under federal jurisdiction was **42 years old**. The oldest homicide offender was **95** years old and the youngest was **18** years old.

- The average age of homicide offenders at admission was **31** years old. The oldest homicide offender admitted was **87** years old and the youngest was **15** years old.

Ethnicity

- On 31 December 2000, the **majority of homicide offenders (73.5%) were Caucasian**.

- In a comparison of the proportion of homicide offenders in each ethnic group with the proportion of general offenders, there was somewhat of a **larger proportion** of **Caucasian and Native** homicide offenders relative to their proportion of all federal offenders. More specifically:

  - Caucasian: **73.5%** of homicide offenders, and **72.4%** of all offenders (proportionately **more** homicide offenders);
  - Native: **17.2%** of homicide offenders, and **15.0%** of all offenders (proportionately **more** homicide offenders);
  - Black: **4.4%** of homicide offenders, and **6.5%** of all offenders (proportionately **fewer** homicide offenders);
  - Asiatic: **1.3%** of homicide offenders, and **2.1%** of all offenders (proportionately **fewer** homicide offenders); and
  - Other: **3.7%** of homicide offenders, and **3.9%** of all offenders (proportionately **fewer** homicide offenders).

Nature of Offence

Categorizing homicide offenders by actual conviction, one finds the following:

- **804** cases of first degree murder, and **16.5%** of all homicide offenders;
- **2,880** cases of second degree murder, and **59.0%** of all homicide offenders;
- **1,197** cases of manslaughter, and **24.5%** of all homicide offenders; and
- **0** cases of infanticide, and **0.0%** of all homicide offenders.

SEX OFFENDERS

Background

The following is an end-of-2000 review of statistical information available on sex offenders then under federal jurisdiction.

The Current Situation

Total Sex Offender Population

- On 31 December 2000, a review of CSC's offender management system yielded a total of **3,428** sex offenders under federal jurisdiction and comprise **(15.6%)** of the total federal offender population. However, these figures understate the actual number of sex offenders because current computer systems do not identify all previous convictions for a sex offence (e.g., provincial sentences); anyone who has committed a sexually-related offence; and anyone who has previously committed a sex offence but was never convicted. A National Sex Offender Census which was conducted in March 1991, identified all sex offenders. The census found about 85% of the sex offender population could be accounted for by the computer systems. *Therefore, using a correction factor (1.173), it is estimated that on 31 December 2000 there were actually **4,021** sex offenders under federal jurisdiction. This adjusted number comprises about **18%** of the total federal offender population.*

Incarcerated Sex Offender Population

- On 31 December 2000, there were **2,269** sex offenders incarcerated in federal institutions and comprise **one-fifth (19.0%)** of the federal incarcerated population. Using a correction factor, it is estimated that on 31 December 2000 there were actually **2,661** sex offenders in federal institutions. This adjusted number comprises **22.3%** of the total federal incarcerated population.

- About **514** of these federally incarcerated sex offenders were in **maximum security** institutions, **1,391** were in **medium security** institutions, and **364** were in **minimum security** institutions. More specifically:

  - Minimum security: **16.0%** of all sex offenders;
  - Medium security: **61.3%** of all sex offenders; and
  - Maximum security: **22.7%** of all sex offenders.

Conditional Release Sex Offender Population

- On 31 December 2000, there were **1,159** sex offenders on conditional release and comprise **11.6%** of the federal conditional release population. *Using a correction factor, it is estimated that on 31 December 2000 there were actually **1,360** sex offenders under community supervision. This adjusted number comprises about **13.6%** of the total federal conditional release population.*

More specifically:

- **151 or 13.0%** were on day parole;
- **380 or 32.8%** were on full parole; and
- **628 or 54.2%** were on statutory release.

Regional Distribution of Sex Offenders

- Regionally, the **Prairies** and **Ontario regions** have the **most** sex offenders, each being responsible for roughly **one-quarter** of the sex offender population, respectively.

- In a comparison of the proportion of sex offenders in each region with the proportion of all federal offenders, the **Atlantic, Prairies and Pacific regions** have **more** sex offenders relative to their proportion of all federal offenders.

More specifically:

- Atlantic: **9.4%** of sex offenders, and **8.6%** of all offenders (proportionately **more** sex offenders);
- Quebec: **20.3%** of sex offenders, and **26.8%** of all offenders (proportionately **fewer** sex offenders);
- Ontario: **26.3%** of sex offenders, and **27.0%** of all offenders (proportionately **fewer** sex offenders);
- Prairies: **28.2%** of sex offenders, and **23.8%** of all offenders (proportionately **more** sex offenders); and
- Pacific: **15.8%** of sex offenders, and **13.9%** of all offenders (proportionately **more** sex offenders).

Sex Offender Population Trends

- The end-of-2000 sex offender population has grown relative to the end-of-1994 sex offender population - particularly on conditional release. Over a recent six-year period (31 December 1994 to 31 December 2000) the **total sex offender population** has **decreased by 8.5%**, the sex offender population **in institutions** has **decreased by 16.0%** and the sex offender population under **community supervision** has **increased by 24.0%**.

Characteristics of Sex Offenders

Gender

- On 31 December 2000, a review of CSC's offender management system revealed that the **majority of sex offenders** listed to date are **male (99.6%)**. There were **14 (0.4%)** cases of a **female** offender for whom a sex offence was listed.

Age

- On 31 December 2000, the **average age** of sex offenders under federal jurisdiction was **44 years old**. The oldest sex offender was **99** years old and the youngest was **19** years old.

- The average age of sex offenders at admission was **39** years old. The oldest sex offender admitted was **80** years old and the youngest was **15** years old.

Ethnicity

- On 31 December 2000, the **majority of sex offenders (70.8%) were Caucasian**.

- In a comparison of the proportion of sex offenders in each ethnic group with the proportion of general offenders, there was somewhat of a **larger proportion** of **Native sex offenders** relative to their proportion of all federal offenders. More specifically:

  - Caucasian: **70.8%** of sex offenders, and **72.4%** of all offenders (proportionately **fewer** sex offenders);
  - Native: **21.0%** of sex offenders, and **15.0%** of all offenders (proportionately **more** sex offenders);
  - Black: **4.9%** of sex offenders, and **6.5%** of all offenders (proportionately **fewer** sex offenders);
  - Asiatic: **0.5%** of sex offenders, and **2.1%** of all offenders (proportionately **fewer** sex offenders); and
  - Other: **2.7%** of sex offenders, and **3.9%** of all offenders (proportionately **fewer** sex offenders).

ROBBERY OFFENDERS

Background

In Canada, the crimes classified as robbery include: armed robbery and robbery with violence, threats or use of a weapon. Break and enter with intent to commit robbery is not included.

Although robberies represent less than **10%** of all violent crimes, criminal justice agencies regularly collect robbery statistics to monitor the extent and trends of these offences.

The following is an end-of-2000 review of the statistical information available on robbery offenders then under federal jurisdiction.

The Current Situation

Total Robbery Population

- On 31 December 2000, a review of CSC's offender management system yielded a total of **6,882** robbery offenders under federal jurisdiction and comprise **almost one-third (31.3%)** of the total federal offender population.

Incarcerated Robbery Population

- On 31 December 2000, there were **4,295** robbery offenders incarcerated in federal institutions and comprise **more than one-third (35.8%)** of the total federal incarcerated population.

- About **1,184** of these federally incarcerated robbery offenders were in **maximum security** institutions, **2,535** were in **medium security** institutions, and **576** were in **minimum security** institutions. More specifically:

    - Minimum security: **13.4%** of all robbery offenders;
    - Medium security: **59.0%** of all robbery offenders; and
    - Maximum security: **27.6%** of all robbery offenders.

Conditional Release Robbery Population

- On 31 December 2000, there were **2,587** robbery offenders on conditional release and comprise **25.9%** of the total federal conditional release population.

More specifically:

- **420 or 16.2%** were on day parole;
- **822 or 31.8%** were on full parole; and
- **1,345 or 52.0%** were on statutory release.

Regional Distribution of Robbery Offenders

- Regionally, the **Quebec** and **Ontario regions** have the **most** robbery offenders, each being responsible for **more than one-third and slightly less than one-quarter** of the robbery offender population, respectively.

- In a comparison of the proportion of robbery offenders in each region with the proportion of general offenders, the **Quebec region** has **more** robbery offenders relative to their proportion of all federal offenders.

More specifically:

- Atlantic: **7.8%** of robbery offenders, and **8.6%** of all offenders (proportionately **fewer** robbery offenders);
- Quebec: **33.7%** of robbery offenders, and **26.8%** of all offenders (proportionately **more** robbery offenders);
- Ontario: **23.6%** of robbery offenders, and **27.0%** of all offenders (proportionately **fewer** robbery offenders);
- Prairies: **21.4%** of robbery offenders, and **23.8%** of all offenders (proportionately **fewer** robbery offenders); and
- Pacific: **13.6%** of robbery offenders, and **13.9%** of all offenders (about the same proportion).

Robbery Offender Population Trends

- The end-of-2000 robbery offender population has declined relative to the end-of-1994 robbery offender population - particularly in federal institutions. Over a recent six-year period (31 December 1994 to 31 December 2000) the **total robbery offender population** has **decreased by 7.1%**, the robbery offender population **in institutions** has **decreased by 11.0%** and the robbery offender population under **community supervision** has **increased by 0.1%**.

Characteristics of Robbery Offenders

Gender

- On 31 December 2000, a review of CSC's offender management system revealed that the **majority of robbery offenders** listed to date are **male (98.2%)**. There were **125 (1.8%)** cases of a **female** offender for whom a robbery offence was listed.

Age

- On 31 December 2000, the **average age** of robbery offenders under federal jurisdiction was **35 years old**. The oldest robbery offender was **84** years old and the youngest was **18** years old.

- The average age of robbery offenders at admission was about **33** years old. The oldest robbery offender admitted was **71** years old and the youngest was **16** years old.

Ethnicity

- On 31 December 2000, the **majority of robbery offenders (75.7%) were Caucasian**.

- In a comparison of the proportion of robbery offenders in each ethnic group with the proportion of general offenders, there was a **larger proportion** of **Caucasian and Black robbery offenders** relative to their proportion of all federal offenders. More specifically:

  - Caucasian: **75.7%** of robbery offenders, and **72.4%** of all offenders (proportionately **more** robbery offenders);
  - Native: **14.3%** of robbery offenders, and **15.0%** of all offenders (proportionately **fewer** robbery offenders);
  - Black: **7.4%** of robbery offenders, and **6.5%** of all offenders (proportionately **more** robbery offenders);
  - Asiatic: **0.9%** of robbery offenders, and **2.1%** of all offenders (proportionately **fewer** robbery offenders); and
  - Other: **1.7%** of robbery offenders, and **3.9%** of all offenders (proportionately **fewer** robbery offenders).

DRUG OFFENDERS

Background

In Canada, the crimes classified as drug offences include those under the Food and Drug Act (FDA) and the Narcotics Control Act (NCA).

The following is an end-of-2000 review of statistical information available on drug offenders then under federal jurisdiction.

The Current Situation

Total Drug Offender Population

- On 31 December 2000, a review of CSC's offender management system yielded a total of **5,779** drug offenders under federal jurisdiction and comprise **one-quarter (26.3%)** of the total federal offender population.

Incarcerated Drug Offender Population

- On 31 December 2000, there were **2,548** drug offenders incarcerated in federal institutions and comprise **one-fifth (21.3%)** of the federal incarcerated population.

- About **666** of these federally incarcerated drug offenders were in **maximum security** institutions, **1,373** were in **medium security** institutions, and **509** were in **minimum security** institutions. More specifically:

  - Minimum security: **20.0%** of all drug offenders;
  - Medium security: **54.0%** of all drug offenders; and
  - Maximum security: **26.0%** of all drug offenders.

Conditional Release Drug Offender Population

- On 31 December 2000, there were **3,231** drug offenders on conditional release and comprise **32.3%** of the federal conditional release population.

More specifically:

- **498 or 15.4%** were on day parole;
- **1,872 or 58.0%** were on full parole; and
- **861 or 26.6%** were on statutory release.

Regional Distribution of Drug Offenders

- Regionally, the **Quebec** and **Ontario regions** have the **most** drug offenders, each being responsible for slightly more than **one-third and one-quarter** of the drug offender population, respectively.

- In a comparison of the proportion of drug offenders in each region with the proportion of general offenders, the **Quebec region** has **more** drug offenders relative to their proportion of all federal offenders.

More specifically:

- Atlantic: **7.7%** of drug offenders, and **8.6%** of all offenders (proportionately **fewer** drug offenders);
- Quebec: **34.2%** of drug offenders, and **26.8%** of all offenders (proportionately **more** drug offenders);
- Ontario: **25.4%** of drug offenders, and **27.0%** of all offenders (proportionately **fewer** drug offenders);
- Prairies: **22.4%** of drug offenders, and **23.8%** of all offenders (proportionately **fewer** drug offenders);
- Pacific: **10.3%** of drug offenders, and **13.9%** of all offenders (proportionately **fewer** drug offenders).

Drug Offender Population Trends

- The end-of-2000 drug offender population has grown relative to the end-of-1994 drug offender population - particularly on conditional release. Over a recent six-year period (31 December 1994 to 31 December 2000) the **total drug offender population** has **increased by 12.9%**, the drug offender population **in institutions** has **increased by 0.3%** and the drug offender population under **community supervision** has **increased by 25.4%**.

Characteristics of Drug Offenders

Gender

- On 31 December 2000, a review of CSC's offender management system revealed that the **majority of drug offenders** listed to date are **male (94.0%)**. There were **346 (6.0%)** cases of a **female** offender for whom a drug offence was listed.

Age

- On 31 December 2000, the **average age** of drug offenders under federal jurisdiction was **37 years old**. The oldest drug offender was **82** years old and the youngest was **19** years old.

- The average age of drug offenders at admission was about **34** years old. The oldest drug offender admitted was **73** years old and the youngest was **17** years old.

Ethnicity

- On 31 December 1999, the **majority of drug offenders (70.9%) were Caucasian**.

- In a comparison of the proportion of drug offenders in each ethnic group with the proportion of general offenders, there was somewhat of a **larger proportion** of **Black and Asiatic** drug offenders relative to their proportions of all federal offenders.

More specifically:

- Caucasian: **71.9%** of drug offenders, and **72.4%** of all offenders (proportionately **fewer** drug offenders);
- Native: **9.0%** of drug offenders, and **15.0%** of all offenders (proportionately **fewer** drug offenders);
- Black: **9.2%** of drug offenders, and **6.5%** of all offenders (proportionately **more** drug offenders);
- Asiatic: **4.6%** of drug offenders, and **2.1%** of all offenders (proportionately **more** drug offenders); and
- Other: **5.5%** of drug offenders, and **3.9%** of all offenders (proportionately **more** drug offenders).

SUMMARY TABLES

DISTRIBUTION OF FEDERAL OFFENDERS BY STATUS

	YEAR	#	(%)	CUSTODY #	(%)	COMMUNITY #	(%)
